If you want to build an unshakeable company, you need to be a strong leader. Here are 18 leadership actions that you can take to make your company a success:

### 1. **Be clear about your vision and mission.**

Your vision is the future state that you are striving for your company.

Your mission is the purpose of your company and why you exist. When

you have a clear vision and mission, you can make better decisions and inspire your team to work towards a common goal.

## 2. **Be a role model for your team.**

Your team will look to you for guidance and inspiration. Set a good example by being honest, ethical, and hard-working. Treat your team with respect and compassion, and they will be more likely to follow your lead.

## 3. **Empower your team.**

Give your team the authority to make decisions and take action. This will help them to develop their skills and become more confident in their abilities. When you empower your team, you will also free up your time to focus on the big picture.

## 4. **Create a culture of innovation.**

Encourage your team to take risks and come up with new ideas. Provide them with the resources and support they need to be successful. When you create a culture of innovation, you will be more likely to stay ahead of the competition.

## 5. **Be open to feedback.**

Feedback is essential for growth and development. Be open to feedback from your team, your customers, and your partners. Use it to improve your leadership skills and make your company better.

## 6. **Celebrate successes.**

Take the time to celebrate your successes, both big and small. This will help to keep your team motivated and engaged. When you celebrate successes, you also create a sense of community and belonging.

## 7. **Learn from your mistakes.**

Everyone makes mistakes. The important thing is to learn from them and move on. Don't dwell on your mistakes, but use them as opportunities to improve. When you learn from your mistakes, you become a stronger leader.

## 8. **Be resilient.**

There will be times when things don't go your way. When this happens, it's important to be resilient and bounce back. Don't give up on your dreams, and don't let setbacks discourage you. When you are resilient, you will be able to overcome any challenge.

## 9. **Be authentic.**

Be yourself and don't try to be someone you're not. People will be able to tell if you are being inauthentic, and they will not respect you. When you are authentic, people will be drawn to you and want to follow you.

## 10. **Be a servant leader.**

A servant leader puts the needs of their team first. They are always looking for ways to help their team members succeed. When you are a

servant leader, you will create a strong and loyal team.

**11. Connect with your customers.**

Get to know your customers and understand their needs. This will help you to develop products and services that they want. When you connect with your customers, you will also build stronger relationships with them.

**12. Stay calm under pressure.**

When things get tough, it's important to stay calm and collected. Don't panic or make rash decisions. Take a deep breath and assess the situation. When you are calm under pressure, you will be able to make better decisions and lead your team through difficult times.

**13. Make time for yourself.**

It's important to take time for yourself to relax and recharge. When you are stressed or overwhelmed, it's harder to think clearly and make good decisions. Take some time each day to do something that you enjoy, whether it's reading, exercising, or spending time with your family.

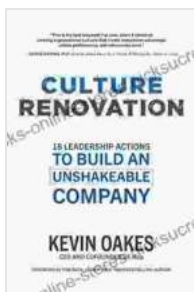

**14. Seek out mentors and advisors.**

No one has all the answers. Seek out mentors and advisors who can provide you with guidance and support. They can help you to learn from their experiences and avoid making the same mistakes. When you have mentors and advisors, you will be more likely to succeed.

## 15. **Never give up.**

There will be times when you want to give up. But don't give up on your dreams. If you work hard and never give up, you will eventually achieve your goals. When you never give up, you will be an inspiration to others and you will build an unshakeable company.

These are just a few of the leadership actions that you can take to build an unshakeable company. When you are a strong leader, you will create a strong and successful team. And when you have a strong team, you will be able to achieve anything.
