The Key Players

The Trump White House was a revolving door of staff, but there were a few key players who remained throughout the administration. These included:

- **Donald Trump:** The 45th President of the United States, Trump was a controversial figure who defied all expectations. He was a master of

self-promotion and branding, but he was also thin-skinned and vindictive.

- **Melania Trump:** The First Lady of the United States, Melania was a former model who kept a low profile during her husband's presidency. She was often seen as a stabilizing force in the White House, but she also had her own private struggles.
- **Ivanka Trump:** The President's eldest daughter, Ivanka was a senior adviser to her father. She was seen as a more moderate voice in the White House, but she was also criticized for her lack of experience.
- **Jared Kushner:** The President's son-in-law, Jared Kushner was a senior adviser to his father-in-law. He was seen as a powerful figure behind the scenes, but he was also criticized for his lack of experience and his close ties to foreign governments.
- **Steve Bannon:** The President's chief strategist, Steve Bannon was a former Breitbart News executive. He was a key figure in the President's campaign and early administration, but he was eventually fired after losing favor with the President.

The Major Events

The Trump White House was marked by a number of major events, including:

- **The 2016 election:** Trump's victory in the 2016 election was a major upset. He defeated Hillary Clinton, the Democratic nominee, despite losing the popular vote. His victory was seen as a sign of the deep divisions in American society.

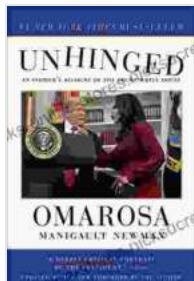

- **The Russia investigation:** The Mueller investigation was a two-year investigation into Russian interference in the 2016 election. The investigation found that Russia had interfered in the election in a "sweeping and systematic fashion," but it did not find that Trump had colluded with Russia.
- **The impeachment inquiry:** The impeachment inquiry was a House investigation into whether Trump had abused his power by pressuring Ukraine to investigate his political rival, Joe Biden. The House impeached Trump, but the Senate acquitted him.
- **The COVID-19 pandemic:** The COVID-19 pandemic was a global pandemic that began in late 2019. The Trump administration's response to the pandemic was widely criticized, and it is estimated that over 600,000 Americans died from COVID-19 during Trump's presidency.
- **The January 6th insurrection:** The January 6th insurrection was a violent attack on the U.S. Capitol by a mob of Trump supporters. The attack was an attempt to overturn the results of the 2020 election. Trump was impeached for inciting the insurrection, but the Senate acquitted him.

The Lasting Impact

The Trump presidency had a lasting impact on American politics and society. His policies led to increased economic inequality, a decline in the rule of law, and a rise in political polarization.

Trump's presidency also left a lasting stain on the Republican Party. The party became increasingly divided between Trump loyalists and those who opposed him. This division led to the party's defeat in the 2020 election.

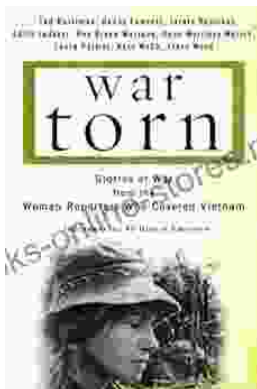

The Trump presidency was a tumultuous and consequential time in American history. It is a time that will be studied and debated for years to come.
