In 1717, Blackbeard blockaded the port of Charles Town, South Carolina, and demanded a ransom for the release of his hostages. The governor of

South Carolina refused to pay the ransom, and Blackbeard responded by burning several ships and setting fire to the town. The attack on Charles Town was a major turning point in Blackbeard's career, and it solidified his reputation as one of the most dangerous pirates in the world.

In 1718, Blackbeard was killed in a battle with the Royal Navy. His head was severed and displayed on a pike as a warning to other pirates.

Blackbeard's death marked the end of the Golden Age of Piracy, and he remains one of the most infamous pirates in history.

Blackbeard's Appearance

Blackbeard was a large and imposing man, standing over 6 feet tall and weighing over 200 pounds. He had a long, black beard that he braided into pigtails, and he wore a black hat and a black coat. Blackbeard's appearance was designed to intimidate his enemies, and it was said that he could strike fear into the hearts of even the most hardened sailors.

Blackbeard's Tactics

Blackbeard was a ruthless and cunning pirate. He was known for his use of psychological warfare, and he often used fear and intimidation to get what he wanted. Blackbeard would often fire his cannons at his victims, and he would sometimes torture them before killing them. He also had a reputation for being a heavy drinker, and he was often seen with a bottle of rum in his hand.

Blackbeard's Legacy

Blackbeard's piratical career was short-lived, but he left a lasting legacy. He is one of the most famous pirates in history, and his name has become synonymous with piracy. Blackbeard's exploits have been immortalized in

books, movies, and television shows, and he remains one of the most popular characters in American folklore.
