In the concrete jungle of the city, it's easy to forget that there's a whole world of edible plants just waiting to be discovered. Dandelion Hunter is a website and blog dedicated to teaching people how to forage for wild edibles in urban environments. The site features a comprehensive guide to over 100 edible plants, as well as tips on how to find and identify them. Dandelion Hunter also offers foraging classes and guided tours.

## The Benefits of Urban Foraging

There are many benefits to foraging for wild edibles in urban environments. First, it's a great way to get fresh, healthy food for free. Second, it's a fun and rewarding activity that can be enjoyed by people of all ages. Third, it's a great way to learn about the natural world and your surroundings. And fourth, it's a sustainable way to live that can help reduce your impact on the environment.

## How to Get Started with Urban Foraging

If you're interested in getting started with urban foraging, there are a few things you need to do.

1. **Learn about the plants in your area.** The first step to foraging is to learn about the plants that are edible in your area. There are many resources available online and in libraries that can help you identify edible plants.
2. **Find a good foraging spot.** Once you know what plants you're looking for, you need to find a good place to forage. Parks, vacant lots, and even your own backyard can be good places to find edible plants.
3. **Be safe.** When foraging, it's important to be safe. Always wash your hands before and after foraging, and only eat plants that you are sure are edible. If you're not sure about a plant, don't eat it.

## Dandelion Hunter's Guide to Edible Plants

Dandelion Hunter's guide to edible plants is a comprehensive resource for foragers of all levels. The guide includes over 100 edible plants, with detailed descriptions, photos, and tips on how to find and identify them. The guide is also available as a free app for iOS and Android.

## Dandelion Hunter's Foraging Classes and Guided Tours

Dandelion Hunter offers foraging classes and guided tours in cities across the United States. The classes are taught by experienced foragers who will teach you how to identify, harvest, and prepare wild edibles. The guided tours are a great way to learn about the edible plants in your area and get some hands-on experience foraging.

If you're looking for a new way to get fresh, healthy food, learn about the natural world, and reduce your impact on the environment, then urban foraging is a great option for you. Dandelion Hunter is a great resource for foragers of all levels, with a comprehensive guide to edible plants, foraging classes, and guided tours.
