Effect

The magician asks a spectator to think of any card in the deck. The magician then deals the cards one at a time, face up, until the spectator's card is reached. The magician then names the number of the card that the spectator is thinking of.

Method

To perform this trick, you will need a deck of cards and a spectator.

1. Ask the spectator to think of any card in the deck. 2. Deal the cards one at a time, face up, until the spectator's card is reached. 3. Count the number of cards that you have dealt. 4. Name the number of the card that the spectator is thinking of.

Tips

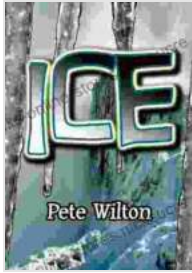

* To make this trick more difficult, you can have the spectator think of a card in a specific suit. * You can also have the spectator shuffle the deck before you perform the trick. * If you are performing this trick for a large group of people, you can have multiple spectators think of different cards.

Variations

There are many different variations of the Ice Super Cool Thought of Card to Any Number trick. Some of the most popular variations include:

* **The ACAAN (Any Card At Any Number)**: This variation of the trick is performed exactly the same as the Ice Super Cool Thought of Card to Any Number, except that the spectator can name any number between 1 and 52. * **The Brainwave Deck**: This variation of the trick uses a special deck of cards that has been pre-arranged so that the magician can always know the number of the card that the spectator is thinking of. * **The Mental Epic**: This variation of the trick is a more advanced version of the Ice Super Cool Thought of Card to Any Number. In this variation, the magician is able to name the spectator's card without even looking at the deck.

The Ice Super Cool Thought of Card to Any Number is an amazing magic trick that is sure to impress your friends and family. This trick is easy to learn and perform, and it's perfect for any occasion.
