In a new memoir, Hbi documents the lives of Jewish women in Iraq before and after the mass exodus of the 1950s and 60s. Her book is a testament to the strength and resilience of these women, and it offers a unique perspective on a little-known chapter of Jewish history.

Hbi's Journey

Hbi was born in Baghdad in 1940. Her father was a successful businessman, and her mother was a homemaker. She grew up in a loving and supportive home, and she enjoyed a happy childhood. However, her life changed dramatically in 1951, when her family was forced to flee Iraq.

The Iraqi government had passed a series of laws that discriminated against Jews, and Hbi's family feared for their safety. They decided to leave

everything behind and start a new life in Israel. Hbi was only 11 years old at the time, and she was heartbroken to leave her home and her friends.

The journey to Israel was long and difficult. Hbi and her family had to travel through the desert, and they were often harassed by Arab refugees. However, they eventually made it to Israel, and they were able to start a new life.
