In the wake of the devastating 2019 wildfires and climate marches, journalist Amy Mackinnon embarked on a journey to witness the impacts of climate change firsthand. Her travels took her to awe-inspiring landscapes around the world, from the melting glaciers of Greenland to the parched farmlands of California. Along the way, she met with Indigenous leaders, farmers, scientists, firefighters, and frontline communities who are experiencing the threats and resilience of a changing world.

Mackinnon's book, *Ten Journeys on a Fragile Planet*, is a powerful and personal account of her experiences. She writes with honesty and vulnerability about the challenges we face, but she also finds hope and inspiration in the stories of those who are working to protect our planet.

A Call to Action

Ten Journeys on a Fragile Planet is a call to action. Mackinnon urges us to take action on climate change, to work together to protect our planet and to create a more sustainable future. She writes, "We need to find a way to live in harmony with the natural world, to respect the limits of our planet, and to work together to create a more just and sustainable future."

Mackinnon's book is a must-read for anyone who is concerned about the future of our planet. It is a powerful and inspiring account of the challenges we face, but it also offers hope and a path forward.

Reviews

"A powerful and personal account of the impacts of climate change, and a call to action for us all." — Elizabeth Kolbert, author of *The Sixth Extinction*

"A beautifully written and deeply moving book. Mackinnon's journey is a reminder of the fragility of our planet, and the importance of working together to protect it." — Bill McKibben, author of *Eaarth: Making a Life on a Tough New Planet*

About the Author

Amy Mackinnon is an award-winning journalist and author. Her work has appeared in *The New York Times*, *The Washington Post*, *The Guardian*, and many other publications. She is the author of the books *The Year of the Monarchs* and *The House of Sixty Fathers*.
